

Safety rules due to Covid-19 outbreak

We are very happy to welcome you back.

We comply with all of the advised and recommended Health measures, in order to protect our customers and team.

We kindly ask you to follow at any time our team's instructions

Keep distance 1,5 m

Wash your hands with soap often

Wear a mask

In the restaurant

Please, wait to be seated, we will disinfect table and chairs before and after each guest.

During breakfast, please, choose what you would like to eat, and we will put it in your plate and bring it to you (the rule is: the guest cannot touch the utensils that other guests might use).

You may repeat as many times as you wish. Our breakfast is buffet, as always, with a small change due to sanitary rules.

In the bar

Unfortunately, starting 22.00 you cannot sit at the bar – only at the tables.

Before 22.00, please, keep 1,5m distance from other people who are not travelling with you.

By the pool

We must put every 2 sunbeds 1.5meters from other 2 sunbeds. If you are a family, you may put them together.

We will leave antiseptic spray by the pool, you can use it to disinfect your sunbed with it (although we do it regularly).

When you are inside the pool, try to keep 1,5m distance from other people.

Wearing the mask is obligatory in all public places and commerce, inside and outside, public transport, in the car if you drive with people who do not live with you, on the way to your room in hotels.

On a lighter note, wearing the mask is not obligatory in a restaurant, bar, at the beach, seaside promenade, by the pool, performing sports and playing wind instruments: so, take your saxophone, get seated in the restaurant or by the pool, order a beer, and enjoy life without a mask ;-)

We kindly ask you to understand that these rules are not ours, Spanish health services and government created them hoping that this way they will prevent the spread of the virus.
